

ACTIVIDAD 10

Materia: Programación web

Profesor: Damian Reyes Pedro

Alumna: Castrejón Mejía Evelyn Fernanda

Semestre y grupo: 4°F

The screenshot shows a web browser window with the address bar displaying 'localhost:7187/Calendario'. The application has a dark blue sidebar with the title 'PRUEBA' and a list of menu items: Home, Counter, Fetch data, Cambio de moneda, and Calendario. The main content area has a title 'CONOCER LOS DÍAS DE UN MES' and an 'About' link. Below the title are two input fields: 'MES' with the value '2' and 'AÑO' with the value '2000'. A blue button labeled 'Mostrar resultado' is positioned below the inputs. A light green box at the bottom displays the result: 'Los días que tiene el mes 2, del año 2000, son: 29 días'.

This screenshot is similar to the first one, but the 'MES' input field now contains the value '5'. The 'AÑO' input field still contains '2000'. The 'Mostrar resultado' button is present. The light green box at the bottom displays the result: 'Los días que tiene el mes 5, del año 2000, son: 31 días'.

This screenshot is similar to the previous ones, but the 'MES' input field now contains the value '9'. The 'AÑO' input field still contains '2000'. The 'Mostrar resultado' button is present. The light green box at the bottom displays the result: 'Los días que tiene el mes 9, del año 2000, son: 30 días'.
